Subject: Fw: Last two "mystery" wells for MDS Energy
Date: 03/02/2012 12:00 PM

Hi Randy,

Can you please tell me when you expect MDS Energy to submit the information originally requested in EPA's August 11, 2011 letter regarding this last identified well (the Edward Dunmire #2-331). As you can see from the email I sent you earlier, we have now figured out which wells were actually named in our well IDs that were unrecognizable to MDS Energy (well IDs 22-026568 and 22-026802).

You can contact me via telephone or email at any time if you have any questions.

Thank you.

Subject: Last two "mystery" wells for MDS Energy

Hi Randy,

Recall that MDS Energy sent EPA information regarding 24 wells out of 26 that had been named to MDS by EPA in our letter dated Aug 11, 2011.

Also recall that the two wells for which MDS did not send any information were not identified to MDS with a recognizable well ID. I have worked with the well stimulation service company who identified these last two.

Here they are:

22-026568 MDS Energy - Edward Dunmire #2-331 - 08-13-09
22-026802 MDS Energy - Gilbert Querio #1-43 - 08-29-10 - 2

It appears to me that the second of these two wells, the Gilbert Querio #1-43, is a

duplicate well for which MDS already sent information to EPA. Therefore, please submit the data requested in EPA's August 11, 2011 letter for the first of these two wells, the Edward Dunmire #2-331.

Thank you. If you have any questions about this matter please feel free to contact me at my contact information in my email footer below.

I have been working with John Srock, of Superior Well Services, to clarify these well IDs. His email address is copied on this email. John's phone number is 724-403-9066.
